

# IOSH Managing Safely for Healthcare Professionals Course

**Pass rate 100%**

## Course Outline

This course gives delegates the knowledge to understand their health and safety responsibilities to reduce the risks to staff, patients and the organisation. The course content can be tailored to the policies of your organisation, so delegates understand how to complete your documentation. This course is seen as best practice by the Health and Safety Executive and Care Quality Commission. The tutor has 20 years' experience of healthcare risk management and encourages an interactive learning environment where experiences are shared to enhance learning.

## Learning objectives

On successful completion of the course, delegates should be able to:

- Understand the importance of managing health and safety in the healthcare sector;
- Describe the role of governance, statutory and mandatory bodies;
- Describe individual health and safety responsibilities;
- Understand the possible consequences if risks are not controlled;
- Carry out and record risk assessments using your organisation's forms;
- Recognise health and safety risks to staff and patients, and strategies for risk reduction;
- Understand the importance of active and reactive monitoring and auditing, and implementation methods;
- Understand the principles of accident prevention, investigation and reporting.

## Who should attend

Directors and Managers

Supervisors and Team leaders

Safety representatives (to promote close working relationship with management)

## Assessments and Certification

- Theory assessment - a short written assessment paper, consisting of 35 multiple-choice or short answer questions
- Practical workplace project - based on the application of tools and knowledge gained on the course. This is submitted on the last day of the course

An **IOSH Managing Safely for Healthcare Professionals certificate** is awarded to delegates who successfully complete the written and practical assessments.
